

April 17, 2008

13 Coins recently hired American Tech Corp to trouble shoot our satellite disk system and also add, DVD, television capabilities to our projection screen in our private dining room as well as a new speaker system.

We had previously used another company for this type of work and had consistently been frustrated by their lack of responsiveness and the quality of their work. When we experienced signal loss on our lounge T.V.'s during a crucial game of the Final Four NCAA Basketball Tournament, American Tech Corp was immediately available to help us troubleshoot via phone while in route to the restaurant on a Friday evening.

American Tech Corp also worked with us to select the right components for our needs and for our systems without running up the bill with unnecessary items. They never tried to sell us anything we didn't need.

We have been very pleased with the quality of their work and their responsiveness when we need them. I would not hesitate to recommend American Tech Corp for your needs.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Nesheim', written in a cursive style.

Mark Nesheim
