

Coeur d'Alene Homes

"Continuing Concerned Christian Care for the Elderly"

26 April 2005

Mr. Lee Wilson
American Tech Corporation
P.O. Box 10
Tacoma, WA 98401

Dear Lee,

I am pleased to write this letter of endorsement to you and American Tech Corporation.

On behalf of the Board of Director's and the residents of Coeur d'Alene Homes let me express my thanks and appreciation for the outstanding job your staff has done installing our new Satellite cable system at our facility. This new system has worked exceedingly well with clarity of picture and a wide selection of channels to suit each of the resident's interests.

Your personal involvement throughout the whole of this project and the professionalism of your staff to go beyond the minimum requirement to get this system installed and running was commendable. You absolutely stood behind your word in every instance of a sometimes very difficult job. Your willingness to make changes and accommodate the unique needs of our situation should be a benchmark for all businesses. Your helpfulness and reassurance that you would make this system work and work to the highest of standards were just the words I needed to hear and the action I needed to see to calm my skeptical and worried mind.

Thank you Lee for a job well done and a friendship that I know will continue to grow as we bring our new facility and Heritage Place on line with this system in the next few months.

Sincerely;

Mike Grabenstein, Administrator
Coeur d'Alene Homes Inc.
